

Bright IT is a team of 30 technology and marketing experts in Poland and Austria who create digital marketing solutions that help our international clients successfully connect with their customers, partners and associates. To strengthen our growing international team the following full-time position is open for immediate start:

FRONT-END WEB DEVELOPER

IN WROCŁAW, POLAND

As a Front-End Web Developer you combine the art of design with the art of programming. Your responsibilities include the translation of UI/UX design wireframes to actual code that will produce the visual elements of the application. You will work with our UI/UX experts to bridge the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works.

RESPONSIBILITIES

- Work as a member of our in-house development team as a front-end web developer,
- Help create, maintain and extend web and mobile solutions for our international clients,
- Integrate our solutions with enterprise grade platforms from OpenText, Adobe or EpiServer,
- Make use of and keep up-to-date our technology stack for UI/UX development.

YOUR PROFILE

- Proficient understanding of web markup (including HTML5, CSS3) and CSS pre-processing platforms LESS/SASS,
- Proficient understanding of cross-browser compatibility issues and ways to work around them,
- Good understanding of code versioning tools - ideally git,
- Good understanding of SEO principles and ensuring that our websites/applications adhere to them,
- Good understanding of client-side scripting and basic JavaScript libraries (such as jQuery),
- Some understanding of advanced JavaScript libraries/frameworks (AngularJS, React, Vue.js) is a plus,
- Good communication skills, proactive, systematic way of working,
- English working proficiency is a must, German language skills are a plus and reflected in compensation,
- Nice to have: experience in UX/UI design.

OUR OFFER

- Competitive salary, employee benefits (LuxMed, Multisport) and a budget for self development,
- Highest quality environment and hardware (MacBook, daskeyboard, external display, ergonomic chair),
- Elastic approach to work organization (we also appreciate work-life balance),
- Mix of experienced and young enthusiasts (to gain a bit from everyone),
- Fridge with a good selection of juices and a Football table with our own app for player statistics!

In case you are a good match and interested in working with us, we look forward to your application by email at frontend@bright-it.com.

Please include the following statement in your application:
